On Being Certain Believing You

You "know" the sky is blue, or that the traffic light had turned green, or where you were on the morning of September 11, 2001--you know these things, well, because you just do. In On Being Certain , neurologist Robert Burton shows that feeling certain—feeling that we know something--- is a mental sensation, rather than evidence of fact.

On Being Certain: Believing You Are... book by Robert A ...

ON BEING CERTAIN is a revolutionary look at how we know what we know. At stake is the commonly held belief that we can logically and reasonably determine when our thoughts are correct. If, after due rumination and deliberation, we decide that a thought must be correct, we presume that this conclusion is itself a conscious choice.
